## Objective of the Seminar

The National Seminar on “Reimagining Development through Indian Knowledge Systems (IKS): A Holistic Vision for Vikshit Bharat @2047” aims to explore the role of India's rich intellectual and cultural heritage in shaping a sustainable, inclusive, and self-reliant future. Indian Knowledge Systems embody centuries of wisdom in areas such as education, health, governance, environmental conservation, agriculture, ethics, and community living. These knowledge traditions offer valuable perspectives for addressing contemporary developmental challenges while preserving cultural identity and social harmony.

The seminar seeks to highlight the relevance of IKS in achieving the vision of **Vikshit Bharat @2047** by integrating traditional knowledge with modern scientific and technological advancements. It will provide a platform for academicians, researchers, policymakers, industry representatives, and students to discuss innovative approaches for applying indigenous knowledge to sustainable development, value-based education, entrepreneurship, environmental management, and social transformation.

The seminar will focus on identifying best practices, promoting interdisciplinary research, and fostering collaborations among educational institutions, government agencies, industries, and communities. Through keynote lectures, panel discussions, and research presentations, participants will examine how IKS can contribute to holistic development and national progress.

By bringing together diverse stakeholders, the seminar aims to generate awareness about the contemporary significance of Indian Knowledge Systems and their potential to strengthen policy frameworks and development strategies. The deliberations are expected to produce actionable recommendations for integrating IKS into education, governance, and innovation ecosystems. Ultimately, the seminar aspires to contribute toward building a culturally rooted, environmentally responsible, knowledge-driven, and globally competitive India in alignment with the vision of **Vikshit Bharat @2047**.
